S76-TR

Description: Lamp of directional lighting.

Technical details:

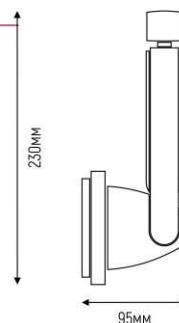

- Cast aluminum housing.
- Used with metal halide MH-TS 70W RX7s lamps (included).
- Equipped with electronic ballasts (installed inside the lamp housing).
- The lamp rotates 360°.

Installation:

On 2-line aluminum busbar trunking with using a special adapter (included).

Purpose:

Exhibition halls, shops, museums, shop windows, etc.

FST93A 150W RX7S

Description:
Luminaire of directional lighting.

Technical details:

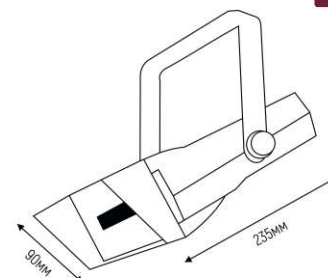

- Cast aluminum housing.
- Reflector made of anodized aluminum.
- Diffuser made of transparent glass.
- The guide section rotates 180°.
- Used with metal halide MH-TS 70W RX7s lamps (included).
- Equipped with electronic ballasts (installed inside the lamp housing).

Installation:

On 4-line aluminum busbar trunking with using a special adapter (included).

Purpose:

Exhibition halls, shops, museums, shop windows, etc.

2-line busbar type T-800

- 2-line busbar grounded via separate copper busbar.
- If necessary, a busbar can be shorten (trim) to the required length.
- Used only indoors.
- Tire cross section from 0.75mm² to 1.5mm².
- Maximum mechanical load, including light weight 5kg.
- Maximum load 16A.
- It is possible to connect busbars using connectors.
- When servicing luminaires, be sure to unplug them.
