

FLOODLIGHT

LED TY004 50W 6000K

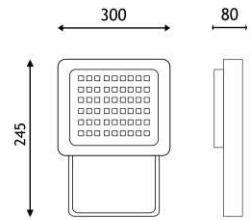

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as COB and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Wattage
LED TY004 50W 6000K	224-15166	50 W
LED TY004 50W 6000K	224-03166	50 W

LED TY005 100W 6000K

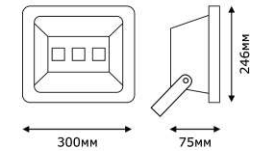

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as COB and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

LED COB SENSOR 10W 6000K BLACK

Description: LED floodlight.

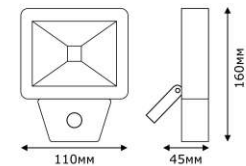

Technical details: Cast aluminum housing. Glass red-hot.

Motion sensor covering an angle of 180°, range up to 12m. Floodlight turns on immediately after detecting movement in the sensor coverage area. Duration of inclusion of a searchlight can be regulated from 15 sec. up to 5 minutes. The sensor has two modes: in the "Daytime" mode, the sensor reacts day and night, in the "Night time" mode only when it is dark. The sensor has a sensitivity setting.

Equipped with a driver and LEDs such as COB.

Installation: On a steel adjustable holder. Minimum height installation 2m.

Purpose: Lighting of open public places. Sport halls, advertising signs

LED POWERLIN B200 200W

 COB
LED IP65 220v 6000K

Description: LED, modular floodlight.

Technical details: Aluminum body with special
covering, resistant to the aggressive environment, vibrating loads and
the manifestation of vandalism. Protected, tempered silica glass, stable
to scratches and understanding. Equipped with LEDs type COB and driver.
Spotlights come with 60 ° round lenses. Optionally available
lenses for a different opening angle. Mounting bracket - lyre for
installations on the support surface.

Purpose: Lighting of building sites, stadiums, parking lots
hypermarkets, open warehouses and other areas requiring lighting
from high supports.

Purpose: Lighting of open public places. Sport halls,
advertising signs

Name	Item code	Luminous flux	Color Temperature	Wattage
LED CN020 (HAIGER)	224-15364	1600lm	6000K	20 W

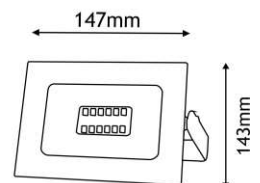

FLOODLIGHT LED CN030 30W

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot. Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls,
advertising signs

Name	Item code	Luminous flux	Color Temperature	Wattage
LED CN030 (HAIGER)	224-15366	2400lm	6000K	30 W

FLOODLIGHT LED CN050 50W

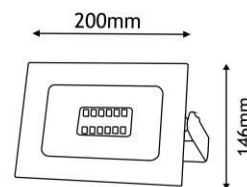

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

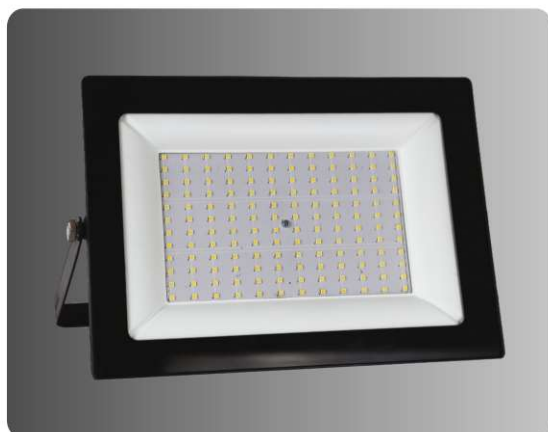

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Luminous flux	Color Temperature	Wattage
LED CN050 (HAIGER)	224-15368	4000lm	6000K	50 W

FLOODLIGHT LED CN100 100W

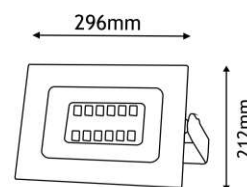

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

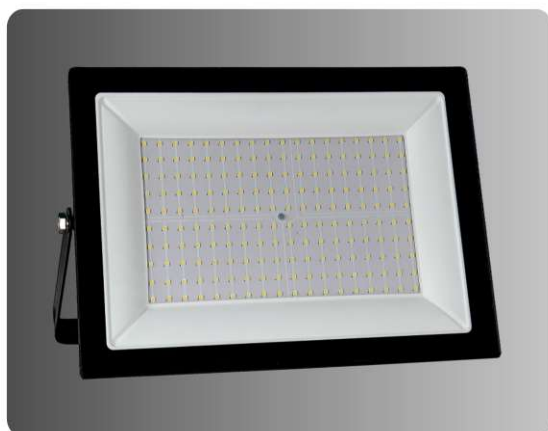

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Luminous flux	Color Temperature	Wattage
LED CN100 (HAIGER)	224-15370	8000lm	6000K	100 W

FLOODLIGHT LED CN150 150W

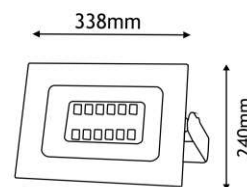

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

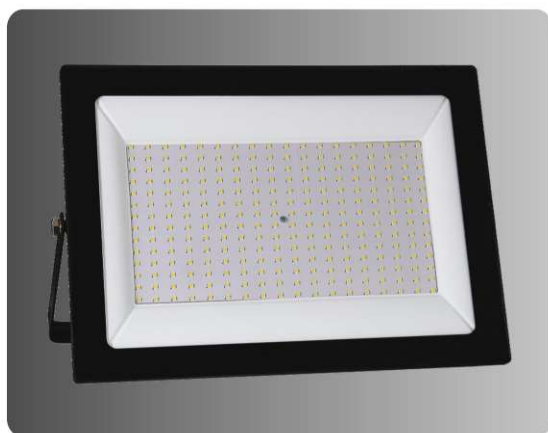

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Luminous flux	Color Temperature	Wattage
LED CN150 (HAIGER)	224-15372	12000lm	6000K	150 W

FLOODLIGHT LED CN200 20W

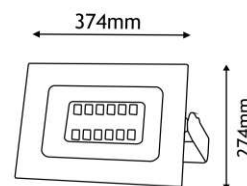

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Luminous flux	Color Temperature	Wattage
LED CN200 (HAIGER)	224-15374	16000lm	6000K	200 W

FLOODLIGHT LED DOB 1010 10W

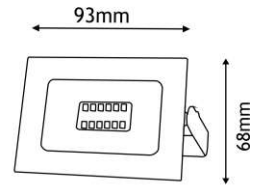

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Color Temperature	Wattage
LED DOB 1010 10W	224-03472	6000K	10 W

FLOODLIGHT LED DOB 1020 20W

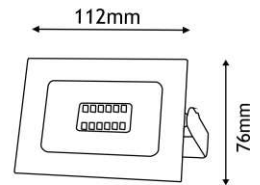

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Color Temperature	Wattage
LED DOB 1020 20W	224-03474	6000K	20 W

FLOODLIGHT LED DOB 1030 30W

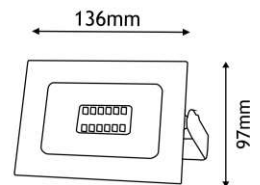

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Color Temperature	Wattage
LED DOB 1030 30W	224-03476	6000K	30 W

FLOODLIGHT LED DOB 1050 50W

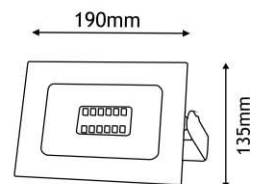

Description: LED floodlight.

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as SMD and driver.

Installation: On an adjustable holder.

Purpose: Lighting of open public places. Sport halls, advertising signs

Name	Item code	Color Temperature	Wattage
LED DOB 1050 50W	224-03478	6000K	50 W

LED M0707-1/M0707-2 LED M0708-1/LED M0708-2

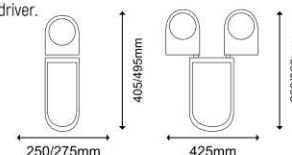

Description: LED floodlight.

Technical details: Aluminum housing. Diffuser of optical polycarbonate. Equipped with SMD type LEDs and driver.

Installation: On the wall.

Purpose: Lighting of open public places.

Sports halls, advertising signs.

Name	Item code	Wattage	Luminous flux	Dimensions WxHxD (mm)
LED M0707-2 black	224-03414	2x10 W	1600lm	425x225x280
LED M0707-1 black	224-03416	10 W	800lm	405x205x250
LED M0708-2 black with sensor	224-03418	2x10 W	1600lm	425x260x360
LED M0708-1 black with sensor	224-03420	10 W	800lm	495x205x275

LED M3228S / M3228AS

Description: LED floodlight.

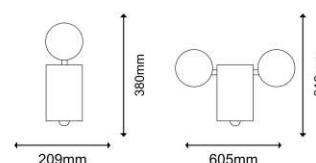

Technical details: Cast aluminum housing. Glass red-hot.

Equipped with LEDs such as COB and driver.

Installation: On the wall.

Purpose: Lighting of open public places. Sport halls,

advertising signs

Name	Item code	Wattage	Luminous flux	Dimensions WxHxD (mm)
LED M3228S black with sensor	224-03432	2x10 W	1600lm	605x275x310
LED M3228AS black with sensor	224-03430	10 W	800lm	380x245x290

LED SOLAR PANEL TS06082E-PIR

Description: LED floodlight for outdoor lighting.

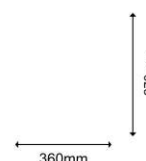

Powered by solar panels.

Technical details: Hermetic corps. Diffuses light by 120°.

How it works: The battery charges from the solar panel during daylight hours, after which the spotlight can work up to 12 hours.

Installation: Using mounting brackets.

(to the bar or mast, to any surface, directly to the wall of the building.)
